

Dusko Pralica

QA Engineer / Tester

I'm a passionate QA Engineer with extensive web app testing background, specializing in meticulous manual bug detection for seamless user experiences. Proficient in API testing (Postman, Swagger) for web service functionality. Skilled in collaborating within agile teams using JIRA for efficient progress tracking. Experienced in streamlining testing through Azure Pipelines and Test Plans, ensuring high-quality releases. Proficient in Java-Selenium UI automation for robust test scripts, prioritizing comprehensive test coverage and top-tier software delivery.
