Education

- Electrotechnical School "Nikola Tesla" BanjaLuka
- Faculty of Mechanical engineering Banja Luka

Skillset

- Excellent knowledge of Test Cases and Bug Report writing
- Excellent knowledge of Manual and API testing
- Excellent knowledge of Agile Methodologies
- Excellent knowledge of Azure Test Plans
- Proficient knowledge of Selenium
- Proficient knowledge of Postman and Swagger
- Good knowledge of git and GitHub
- Good knowledge of Java
- Basic knowledge of SQL

Language

English

Native**

About

I am a dedicated QA Engineer with a strong background in web app testing, specializing in meticulous manual bug detection to ensure seamless user experiences. My expertise extends to UI and API automated testing, where I use tools such as Postman and Swagger to validate web service functionality. Within agile teams, I collaborate effectively using JIRA and Azure Test Plans for efficient progress tracking.

My experience includes streamlining testing processes through Azure Pipelines and Atlassian Bitbucket, ensuring the delivery of high-quality releases. When it comes to automation, I leverage Java, Selenium, and TestNG to create robust UI and API test scripts, prioritizing comprehensive test coverage for top-tier software delivery. This approach allows me to contribute significantly to the success of projects by implementing efficient and effective automation solutions.

I invite you to check out my **GitHub** profile to explore the projects I've worked on firsthand.

Experience

April 2022. - present
Alea Partners

QA Engineer

- Proficiently conduct manual, regression, smoke, and API testing to validate software functionality across diverse releases.
- Manage release processes, ensuring seamless software deployments while upholding rigorous quality benchmarks.
- Develop comprehensive test documentation, offering clear testing protocols that foster efficient team communication and project understanding.
- Drive efficiency by creating web UI and API automation tests, bolstering testing precision and effectiveness.

Courses

- Automation Testing - Alea Partners / Internal company course
- Java course - Alea Partners / Internal company course
- Manual QA Training - Davor Jovanovic
- Java (Sololearn)
- Software Testing Bootcamp (Udemy)
- Git and GitHub Crash Course (Udemy)
- Software Testing Foundation: Bug Writing and Management (LinkedIn)
- Selenium Essential Training (LinkedIn)
- Programming Foundations: Version Control with Git (LinkedIn)
- Programming Foundations: APIs and Web Services (LinkedIn)
- Learn HTML course (Codecademy)
